Reason for Allowance

The following is an examiner's statement of reasons for allowance:

The examiner finds applicant's arguments presented in the response of September 28, 2005 to be persuasive and adopts them as his own. In particular the examiner finds the argument that the Sprague device is designed to hook on a clasp of a denture/bridge rather than between the edge of a tooth positioning device and the patient's gums to be persuasive as the Sprague device with its sharp edges would likely scrape the patient's gums. Additionally, the declarations submitted by recognized experts in the field attesting to a long felt need for the device and the evidence of the device's commercial success have been found persuasive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
